About the TONG GROUP

TONG MING (China)

Tong Ming opened our first manufacturing campus in 1996 in Jiaxing, China. Making nuts, bolts, screws, threaded rod, and more, the factory has seen constant innovation and upgrades. Our dynamic production vision was fully realized with the opening of our second and third campuses in 2022 and 2023. Featuring fully-automated production and logistics, our low-cost/high-quality business model continues to disrupt the legacy producers.

15,000 Capacity: 15,000+ tons/month

200,000 Floor Space: 200,000 sq meters

3 Factory Locations: 3

20,000 SKUs: 20,000+

TONG HEER (Thailand)

TONG HEER (Malaysia)

WINLINK (Taiwan & China)

The Tsai family founded our first fastener factory in Taiwan in 1978. With the help of employees, partners, suppliers and customers, the TONG group grew to become the global leader in stainless steel fasteners. With six factories in China, Malaysia and Thailand, the TONG group has the scale and range to meet any fastening challenge. Our ubiquitous "THE" and "TONG" head marks are recognized around the world for the quality they stand for.

PACKING

Large bolt cold forming machines up to M36 and 1-1/2″

ADVANCED FORMING MACHINES

High speed forming machines maximize the capacity.

Lower error rate when changing the molds: higher quality and more stable efficiency.

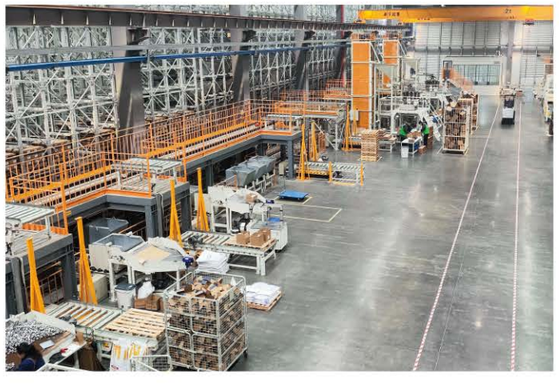

FACTORY HIGHLIGHT

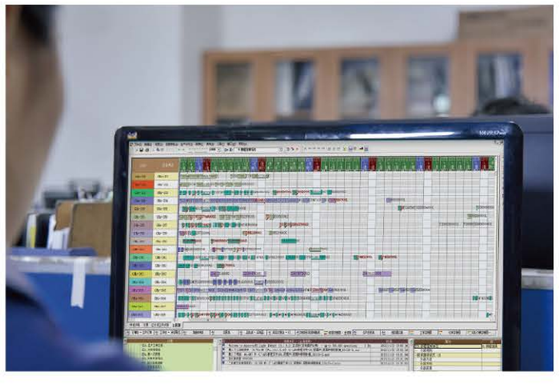

Automation increases machine efficiency, decreases errors, and creates a better labor environment.

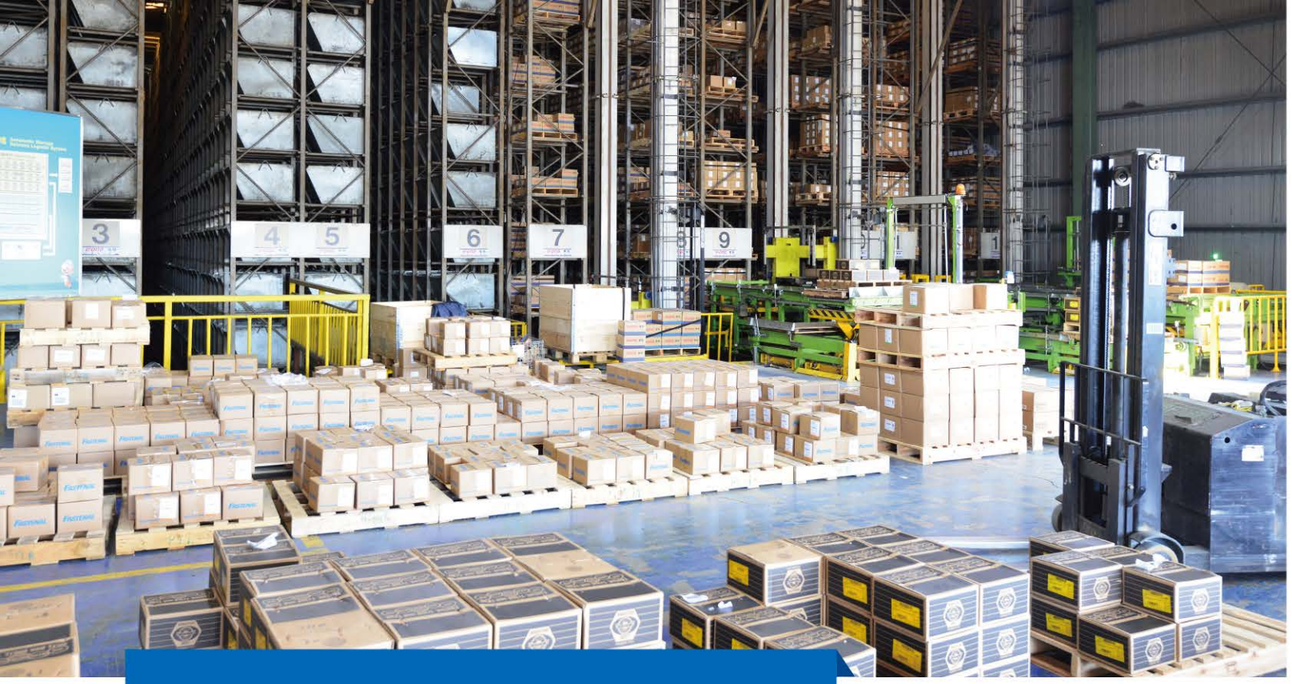

Immediate packing after production/inspection means fewer touch points: faster delivery and lower cost.

AI powered end-to-end software control: forecasting, scheduling, tracking, alerting.
